SUBJECT

Public Hearing - Annual Stormwater Utility Budget and Assessment Roll

RECOMMENDATION

The City Manager recommends that the City Council:

Adopt Resolution No. 2022-18 adopting the 2022-2023 stormwater fund budget and certifying the stormwater utility assessment as presented by Brevard County with no change in the annual stormwater utility fee methodology or rates.

FISCAL IMPACT

Revenues from the assessments are deposited into the restricted stormwater utility fund to be used solely for stormwater purposes. At the \$52 per Equivalent Residential Unit (ERU) annual rate and the minimum parcel charge of \$5 per year approved by the City Council on July 17, 2018, by Resolution No. 2018-11, the calculated billing amount for fiscal year 2021-2022 totals \$681,049.59.

DISCUSSION

The 2022-2023 Stormwater Assessment

The City Code of Ordinances, Sections 58-411 through 58-412, addresses the collection of the City's stormwater utility fee. Section 58-411 requires the City Council to ratify and confirm the assessment roll to the tax collector for appropriate action.

The 2022-2023 assessment methodology and rates remain the same as the adopted 2021-2022 assessment. The base residential fee for 2022-2023 remains \$52.00 per parcel, but credits are applied for parcels within the Melbourne-Tillman Water Control District service area as well in some subdivisions for previously constructed and operating stormwater improvements. The annual assessment roll totals \$681,049.59 as of August 23, 2022. In addition, the following account is identified as improved federal land eligible for stormwater assessment within the City of West Melbourne:

Tax Account No.	Millage Code	Land Use Code	2022 Stormwater Fee	2023 Stormwater Fee
2852983	34V0	8810	\$ 3,057.06	\$ 3,057.06

This U.S. Post Office property assessment is not collected in the manner in which ad valorem assessments are collected, but will instead be invoiced directly.

The 2022-2023 Stormwater Budget

The proposed 2022-2023 stormwater utility fund revenue budget totals \$2,228,100. Forecasted revenues reflect the proposed assessment (discounted for anticipated property owner early payment discounts), \$1,593,000 in awarded grant funds, and \$13,700 in appropriated fund balance. Proposed 2022-2023 stormwater utility fund expenditures are as follows:

Employee salaries and benefits:	\$ 29,000
Operations, maintenance and equipment capital outlay costs:	264,300
Drainage capital improvement projects:	1,836,800
Scheduled 2022-2023 debt service repayment to general fund:	<u>98,000</u>
Total 2022-2023 Stormwater Budget	<u>\$ 2,228,100</u>
