Help shape your community! The [Space Coast Transportation Planning Organization](https://www.sctpo.com) and the City of West Melbourne will host a virtual kick-off public meeting to discuss the Minton Road Feasibility Study.

The study (project limits: from Palm Bay Road to US 192) is focused on exploring alternatives that improve pedestrian and bicycle facilities along the corridor and providing intersection improvements to help with the function of the roadway. Initial findings, including proposed bicycle and pedestrian facilities and intersection improvements will be presented during this virtual presentation.

Citizens will have the opportunity to explore the project, get more information, and provide feedback via a website.
